Real Safety Solutions

RENTAL GUIDE

Terms of Rentals

Rentals are to be paid in advance unless credit has been previously established. Terms are net 30 and 2% on past due invoices. Rentals are based on a 24 hour day.

- **Fall Arrest Activation:** Should there be an emergency fall or activation on a fall arrest or confined space structure, winch, or self-retracting lifeline/rescuer, there will be a recertification fee or potentially a buyout of the equipment if it can not be put back into service. We will require documentation of the incident to help determine best course of action.
- **Calibration:** All gas detectors and breather boxes will be calibrated before each rental and a one-time calibration fee of \$40.00 applied to each unit on rental. All gas detectors require a bump test prior to each day use and calibration upon failure of bump test or calibration every 180 days.
- **Hygiene:** All respiratory facepieces will have a one-time fee of \$10.00 for sanitization.
- **Air fill:** All breathing air cylinders will have a one-time fee of \$15.00 for 5-minute escape cylinders and \$25.00 for 30-minute SCBA cylinders. Refills during a rental are an additional \$15.00 for 5-minute escape cylinders and \$25.00 for 30-minute SCBA cylinders.
- **Respiratory Fit Test:** We can provide a Quantitative fit test for our supplied air masks prior to rental for a \$50.00 fee. An employer must ensure that everyone who requires respiratory protection is properly fit-tested. It is still the employer's responsibility to ensure workers are trained on the fit, use and selection of respiratory protection, as well as why they must use respiratory protection.
- **Cleaning:** Any excessive cleaning on returned equipment will be billed out at our shop rate of \$95.00 per hour.

It is the responsibility of the user of this equipment to:

- Read and understand the manufacturer's instructions on operation and know the equipment's capabilities and limitations.
- Be trained in the use of the equipment AND to understand the regulations, guidelines and legislation within the jurisdiction of the city and province that you are in.

Reliant Action Ltd. assumes no responsibility/liability for the manner in which you, the customer, use the equipment.

- The customer will be charged for the repairs of any damage incurred to the unit, accessories, or case, either by accident or on purpose.
- Retrieval equipment is not to be used for material handling.
- If retrieval equipment has been found to be used for anything other than the intended purpose, the equipment will be considered sold to the customer.

** In absence by accepting the equipment you agree to the listed conditions.**

Quick Tips!

Rental charges are for time out, not time used.

It's important that only trained and qualified operators use the equipment.

Confined Space Entry / Retrieval / Rescue

DBI 5 Piece Hoist
