GLOBE ATHLETIX™ JACKET

Innovative material technology enables all-new athletic design with unique stretch fabrics that allow closer, body-contoured fit to provide unprecedented range of motion with less bulk, more flexibility, and lighter weight.

MATERIALS

Fabric is finished with the FreeFAS durable water repellent, which is made without the use of intentionally added PFAS.

PBI® STRETCH XT is built with ENFORCE™ Technology which increases the trap tear performance when compared to the prior version of PBI® Stretch.

PBI® STRETCH fabric with KEVLAR® allows closer, less bulky fit with unprecedented range of motion and more flexibility, while providing premium thermal break open protection.

DUPONT™ NOMEX® NANO thermal barrier material is thinner, lighter, more flexible, more breathable, and quicker drying.

3M™ SCOTCHLITE™ COMFORT TRIM reflective material is segmented and heat sealed to be lighter, more flexible, and breathable without sacrificing visibility.

GORE-TEX CROSSTECH® INNOVATE MOISTURE BARRIER for customers seeking turnout gear made from materials without intentionally added PFAS or **GORE-TEX CROSSTECH® BLACK** moisture barrier that provides the highest breathability in the widest range of environmental conditions to reduce heat stress.

JACKET FEATURES

MORE STREAMLINED DESIGN with vertical seaming reduces oversize in front chest, bulk under SCBA, and stiffness in front closure.

YOCCO™ DRAG RESCUE DEVICE is easy to deploy when you need it, out of the way when you don't.

LINER ACCESS OPENING allows for easy access between the layers.

MORE FLEXIBLE SEAMS are safety-stitched and double-needle top-stitched for strength but are less bulky and lay flatter.

Because ATHLETIX™ is loaded with standard features and the nature of the stretch outer shell fabric, **OPTIONS** are limited. Please inquire.

MEN'S & WOMEN'S SIZES: Chest, Length, and Sleeve.

Certified to NFPA 1971 (Structural Fire Fighting)

MADE IN THE USA

LESS BULKY, SOFTER & MORE ADJUSTABLE COLLAR interfaces better with hood and helmet and reduces head restriction.

STRETCH PANELS in the thermal liner work with the stretch outer shell to provide maximum range of motion and minimum restriction.

DRD OPENING IN THE COLLAR takes bulk out of the upper back and allows better access above the SCBA.

ELASTICIZED SIDE PANELS provide flexible, more athletic fit at the waist.

ARTICULATED ELBOWS for body-contoured fit with minimum restriction.

OVERLAPPING FRONT CLOSURE WITH OPTIONAL ZIPPERGRIPPER™ (patented) to reduce bulk and permit quicker and easier donning and doffing.

CARGO POCKETS WITH GRIP TABS for quicker and easier access to all your stuff in the minimum amount of time.

TELESCOPING SLEEVE BAND WITH DOUBLE WRISTERS keeps water out and adds thermal protection.
