EXCELLENCE
INTERNATIONAL ACHIEVEMENT AWARDS

GLOBE ATHLETIX™ PANTS

MATERIALS

Fabric is finished with the FreeFAS durable water repellent, which is made without the use of intentionally added PFAS.

PBI® STRETCH XT is built with ENFORCE™ Technology which increases the trap tear performance when compared to the prior version of PBI® Stretch.

PBI® STRETCH fabric with KEVLAR® allows closer, less bulky fit with unprecedented range of motion and more flexibility, while providing premium thermal break open protection.

DUPONT™ NOMEX® NANO thermal barrier material is thinner, lighter, more flexible, more breathable, and quicker drying.

3M™ SCOTCHLITE™ COMFORT TRIM reflective material is segmented and heat sealed to be lighter, more flexible, and breathable without sacrificing visibility.

GORE-TEX CROSSTECH® INNOVATE MOISTURE BARRIER for customers seeking turnout gear made from materials without intentionally added PFAS or **GORE-TEX CROSSTECH® BLACK** moisture barrier that provides the highest breathability in the widest range of environmental conditions to reduce heat stress.

PANTS FEATURES

ADJUSTABLE BELT CLOSURE makes the pants fit like jeans or can be replaced by your choice of Class 2 Seat Harnesses or Personal Escape Belt, initially or down the road.

REVERSE BOOT CUT is shorter in the back to avoid premature cuff wear.

MORE FLEXIBLE SEAMS are safety-stitched and double-needle top-stitched for strength but are less bulky and lay flatter.

HARNESSES OPTIONS

Choice of **SERIES 1 INTERNAL HARNESSES** with floating leg loops and low-profile waist buckle, **SERIES 2 INTERNAL HARNESSES** with floating leg loops, hook and dee closure, and choice of auto-lock carabiner, or **SERIES 3 INTERNAL HARNESSES** with floating leg loops and a hook and dee style closure.

PATENTED FLOATING LEG LOOP SYSTEM of all Globe harnesses is hardware free and made from KEVLAR®. Leg loops stay down out of your business except when you load the harness, pulling them up into the correct seat position to equalize the load.

With integrated harness, consider a **ROPE POCKET** for rope storage and/or an **ESP POCKET**, which stores rope, hook, and descender with easy access for deployment.

PERSONAL ESCAPE BELT OPTION replaces standard belt closure.

Because ATHLETIX™ is loaded with standard features and the nature of the stretch outer shell fabric, **OPTIONS** are limited. Please inquire.

MEN'S & WOMEN'S SIZES: Waist and Inseam.

Certified to NFPA 1971 (Structural Fire Fighting)

MADE IN THE USA

LOWER RISE, LESS BULKY DESIGN fits closer to your body, and deeper fly opening permits quicker and easier donning and doffing.

BANDED INSEAM DESIGN allows stretch in all directions and reduces binding in the crotch.

STRETCH PANELS in the thermal liner work with the stretch outer shell to provide maximum range of motion and minimum restriction.

ELASTICIZED SIDES provide flexible, more athletic fit at the waist.

ARTICULATED KNEES with cathedral knee patches and SILIZONE® knee pads are built for unrestricted and protected crawling.

ANGLED SIDE POCKETS WITH GRIP TABS for easier access to all your stuff in the minimum amount of time.

LINER ACCESS OPENING allows for easy access between the layers.

PADDED H-BACK RIPCORD SUSPENDERS attach to horizontal loops, so there is no metal hardware to dig in or pull out.
