VERTICAL FLY CLOSURE with hook and loop makes for fast and secure donning.

ELASTICIZED SIDES provide flexible, more athletic fit at the waist.

ARTICULATED KNEES with **CATHEDRAL KNEE** reinforcements are built for unrestricted crawling.

THERMALLY ENHANCED KNEES add a layer of thermal and moisture barrier to protect this high-compression area.

PADDED H-BACK RIPCORD SUSPENDERS attach to horizontal loops so there is no metal hardware to dig in or pull out.

ONE-PIECE CROTCH GUSSET reduces binding in the crotch.

GLOBE PANT SYSTEM IH™ READY

Your choice of internal Class 2 Seat Harnesses or a Personal Escape Belt certified to NFPA 1983 (Life Safety Rope and Equipment). Harnesses feature our patented floating leg loop system. Leg loops stay down out of your business except when you load the harness, pulling them up into the correct seat position to equalize the load. Leg loops are hardware free, so there's nothing to dig into your legs. Made from KEVLAR®, these harnesses meet NFPA 1971 (Structural Fire Fighting) requirements for flame and heat resistance when installed in the pants. Not ready to upgrade to an internal harness? Add it later without alteration.
